Neighbourhood Houses Survey 2025

The Department of Families, Fairness and Housing (DFFH) has commissioned Neighbourhood Houses Victoria to collect data on their behalf to enable Neighbourhood Houses to meet their reporting requirements. As has occurred in the past, the DFFH reporting requirements have been integrated in to the Annual Neighbourhood House Survey to reduce duplication.

Completion of all questions marked with an asterisk (*) is compulsory for all Neighbourhood Houses receiving Neighbourhood House Coordination Program funding.

Completing the non-compulsory questions ensures the Neighbourhood Houses Survey remains a vital source of information for and about the Neighbourhood House sector. The data collected is used widely by Neighbourhood Houses Victoria, DFFH, Government, academics, as well as Neighbourhood Houses themselves. Neighbourhood Houses Victoria encourages you to complete all questions to help strengthen the evidence base for the Neighbourhood House sector.

Survey data has been essential in achieving increased funding and opportunities for the Neighbourhood House sector.

Your responses to DFFH questions will be provided to DFFH in a way that is identifiable. Neighbourhood House Network Managers will also receive identifiable responses to enable them to better carry out their DFFH funded support work. For all other purposes, all survey responses will only be reported in aggregate, i.e. as combined statistics and not traceable to an individual Neighbourhood House. Identifiable data is not made available to any other party without your consent.

General tips for filling in the survey

Please read the questions carefully, taking special note of any definitions - words that are underlined refer to the definitions provided.

'Other' boxes are designed for you to provide information that is not already covered in the questions or checklists provided. Please check before you write something in the 'other' box that it is not already covered by the available options.

'Comments' boxes are provided in case you want to add anything more. If you don't have anything to add, please do not write 'no', 'nothing' or 'no comment' in the box; just leave the comment box blank.

Thanks for taking the time to complete the Neighbourhood Houses Survey 2025.

If you require any assistance, please call Neighbourhood Houses Victoria on 9602 1228 or email david@nhvic.org.au

Definitions

- **Governance roles / Governing:** Does not include Committee/Board members volunteering for day to day operations. Does include volunteering to do Committee of Management / Board business e.g. attending meetings, typing up minutes, preparing the treasurer's report, working group or subcommittee meetings, etc.
- **USED the Neighbourhood House:** means physically attending at a Neighbourhood House or any of its program delivery sites
- **Neighbourhood House activities:** All activities run by or for your Neighbourhood House. Exclude room hire activities that are purely commercial and were not sourced by the Neighbourhood House to meet a local need.
- **Open or Open to the public:** Means a staff member or volunteer is present to assist anyone entering and requiring a response to an enquiry, enrolment in an activity, etc. It does not include when people are using the facility but no staff member or volunteer is available to assist with Neighbourhood House related enquiries etc.
- **Community development projects:** Community Development is a community-led, participatory process with members of your community who have identified a mutual goal. It is coordinated collaborative action by a community group to drive community or systems change. A Community Development project is co-designed with affected community members, and they take an active role in the project. A community development project involves a process over a period of time, working towards a specific goal to create change. It is not a single activity done solely by the Neighbourhood House "for" community members. Projects may have dedicated funding. Projects are not ongoing activities but may lead to ongoing activities as an outcome.
- **Activity hours:** includes all time spent by the Neighbourhood House on involving the community, identifying community needs, determining appropriate community programs, partnership development and evaluation as well as the normal activities provided by and for the Neighbourhood House. It includes activity that may be undertaken by staff and volunteers. Do not include activity that is room hire on a purely commercial basis.
- **Auspice / auspiced:** means to take on the legal and financial liability for a group and its actions.
- **Community or social enterprise:** means business activity conducted to 'intentionally tackle social problems, improve communities, provide people access to employment and training, or help the environment' (see www.socialtraders.com.au). It may include business activity to generate funds to enable a Neighbourhood House to achieve any of the above goals. Op shops, cafe's, bookshops are some examples of Neighbourhood House enterprises.
- **Social prescribing / social prescription:** means a process enabling GPs, nurses and other health professionals to refer people to a range of local, non-clinical services to improve their physical, mental and/or social health and wellbeing outcomes. Most programs involve a link worker or navigator who works with people to access suitable activities and support. People may, for example, be referred to exercise classes or group activities to help increase their social connections.
- **2025** refers to the calendar year Jan to Dec 2025
- **Last annual report** is the report that was finalised at your last Annual General Meeting
